Nationality: Ghanaian | Work Status: Open Remote Roles

Professional Summary

Experienced and dependable Software Developer with 6+ years of expertise in Laravel Backend Development, complemented by skills in Golang, JavaScript, and modern web technologies. Proven record of architecting, developing, and scaling applications. Currently a backend engineer at Rovi LLC, leading development for flagship platforms like EfiePro (property management) and FlockSuite (Church Management System). Adept at building secure, scalable, and maintainable solutions, automating workflows, and integrating third-party APIs. Passionate about clean code, real-world impact, and mentoring—running a YouTube channel where I teach Golang through practical beginner projects.

Work Experience

Backend Engineer (Laravel) – Remote

Rovi LLC – USA / Ghana | Jan 2021 – Present

- Lead backend architecture and full-stack integrations for multiple large-scale projects.
- Built EfiePro, a Laravel-based property management platform with custom multi-role access.
- Developed and scaled VCpastry.com, a tailored African pastries eCommerce platform.
- Implemented secure multi-auth systems, automated deployments, and admin dashboards.

Freelance Laravel & WordPress Developer

Global (Remote) | 2018 – Present

- Flocksuite.com – Church management system with fundraising and events platform.

- Nyonderma.com & Booking.nyonderma.com – Beauty/skincare sites & booking systems.
- Overcomerslogistics.com, DigiworldImports.com – eCommerce & service websites.

Backend Developer (Contract)

Masyvs Konzept LLC – Ghana | Aug 2019 – Oct 2020

- Developed academic portals, workflows, and integrated REST APIs for educational services.

Backend Consultant

Excelgate Solutions (Scholarship Secretariat) – Ghana | Jan 2018 – Jun 2019

- Digitized scholarship workflows, automated document processing, and backend PDF generation.

Education

B.Sc. Agricultural Engineering – Kwame Nkrumah University of Science and Technology (KNUST), Ghana | 2016
